

SUMMARY

Full Stack Developer with experience building scalable web applications using React, Node.js, Express.js, and MongoDB. Strong foundation in Data Structures and Algorithms with 700+ problems solved across competitive programming platforms. Experienced in REST API development, authentication, authorization, and database optimization.

EDUCATION

Degree	Institute	CGPA / %	Year
B.Tech., CSE	National Institute of Technology, Patna	7.50	2023-2027
Senior Secondary	BSEB	79.2	2022
Secondary	CBSE	81.8	2020

TECHNICAL EXPERIENCE

- **Personal Projects** : Full Stack Development, Backend API Development, Database Design 2024 – Present

PROJECTS

PROJECTS

- **Chat Application – Real-Time Messaging Platform** 2025
React, Node.js, Express.js, MongoDB, Socket.IO, Tailwind CSS  
 - Built a real-time chat application enabling instant messaging using WebSockets (Socket.IO).
 - Implemented secure user authentication and session management.
 - Developed one-to-one and group chat functionality with message history and timestamps.
 - Added real-time features such as typing indicators and online/offline user status.
 - Optimized backend performance to handle multiple concurrent users with low latency.
 - Deployed the application for seamless real-time communication.
- **Bookstore Application** Jan 2025 – Present
React, Node.js, Express.js, MongoDB, Redux, Tailwind CSS  
 - Built a full-stack bookstore platform for browsing, searching, and managing books.
 - Implemented secure authentication and role-based authorization for User and Admin dashboards.
 - Developed features like cart, wishlist, and order simulation system.
 - Created an Admin panel to manage inventory (add, update, delete books).
 - Optimized MongoDB queries using indexing, improving search performance by approximately 40%.
 - Designed and integrated RESTful APIs for scalable backend operations.
 - Deployed the application for real-world usage.

TECHNICAL SKILLS

- **Programming Languages:** C++, C, Java, JavaScript, TypeScript
- **Frontend Technologies:** HTML, CSS, React.js, Tailwind CSS
- **Backend Technologies:** Node.js, Express.js, Flask
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Developer Tools:** Git, GitHub, Postman, Docker, Linux
- **Core Concepts:** Data Structures, Algorithms, REST APIs, Authentication, Authorization

ACHIEVEMENTS

- Secured AIR 16397 in JEE Main 2023
- Qualified JEE Advanced 2023

CODING PROFILES

- **LeetCode** : Rating 1700+, Solved 350+ problems 
- **CodeChef** : 2★ (Division 3) 
- **Core Strengths** : Data Structures, Algorithms, Competitive Programming
- **Problem Solving** : Solved 700+ problems across competitive programming platforms
